ANSWERS TO CORRESPONDENTS.  
Mr. K.—Your paper was paid for and ordered to be discontinued by Peter Ent, the Light Street Senator; that will account for your not receiving it last week. We would like to know when Peter Ent became the acting newspaper agent for certain parties in this county? It was news to us, until not long since, he came into our office with a little cash. We always thought these men, for whom he has been officiating, were entirely competent to attend to their own business, and we think so still, notwithstanding the Hon. Peter Ent has taken upon himself to pay for and stop their subscriptions. He has discontinued subscriptions to our paper, without positive orders, or else we are wrongfully informed. We have not, so far as to ask any of our friends to discontinue dealing at his store nor do I think we shall. We are above that kind of business. We'll pay a little more attention henceforth to these men who are trying to injure our business in an unfair and dishonorable way. We think we have our remedy.

Senator Bucklew started for Washington City on Monday evening.

The receipts to the DEMOCRAT AND STAR for the month of November will appear in our next.

Hon. Thomas Chaffant, Member of Assembly elected from this District, paid his friends a visit at this place on Monday last.

The County Commissioners appointed, on Monday last, WILLIAM KRIKORIAN, of Mifflin their Clerk for the coming year 1867.

The President's Message will appear entire in our next. At present writing (Tuesday) we have not seen it. It is expected in this evening's mail.

An ineffectual attempt was made one night last week, to break into the Rough and Ready Store at Danville. A report from the watchman's talking-piece made the villains skedaddle.

Gen. Beauregard, who went through the whole of the late war without a wound, died recently in Paris. His hair, when he went to that city, was as white as a grizzly bear's, and when he came away, as black as a black bear's.

The late rains have swollen Fishing Creek bank full. The streams are now prepared for a "freeze up." The complaint of "low water," by the Millers, will not soon be heard, if the present rise in the creeks is as general throughout the country as it is in this section.

GREAT RUSH AT MARR.—The public are taking advantage of Marr's low prices, and are carrying his goods off by wagon loads. He has just replenished his store with another supply of Fall and Winter Goods, which he proposes to sell at reduced prices. If you desire to purchase a good article and at a reasonable figure, call on Mr. Marr.

We are indebted to a friend for the following new subscribers to our paper, from Centralia: M. Mulligan, Michael Horan, Michael Loghar, Patrick Kendig, Michael Burns, and M. Hannan. Thanks to our friends. Our list is steadily increasing. On Monday and Tuesday of this week we made quite a number of valuable acquisitions to our already large list.

Court.—There was a pretty good turnout at Court on Monday. Rain set in on Tuesday morning which prevented many from being in attendance on that day. There are no very important causes to be tried this term. We will publish a synopsis of the proceedings in our next. We go to press too early to give any account of the causes being disposed of in this issue.

In another column of this paper will be seen a report from a Committee appointed to examine the building and report progress of the Bloomsburg Literary Institute, which is in course of erection at this place, under the personal supervision of Professor CARVER, who is the contractor. The work is coming on finely, and so far gives entire satisfaction. Read the report from the Committee.

The Keystone Clover Seed Stripper is being introduced to the farmers of this County, by Messrs. Wertman and Reinhold. This machine is said to possess many valuable advantages in gathering clover seed. From what we have learned of its good qualities, we should think every farmer ought to have it. It will be advertised in this paper, when the farmer may be able to fully understand its structure and its value.

Messrs. Van Allen, Leslie & Voris, of Danville, Pa., are earnestly engaged in erecting a New Rolling Mill, at Northumberland. The building is of frame, and is 202 feet by 65 feet; and will consist when finished of a nail factory, a rolling mill for the manufacture of merchant iron and T. rails for mines, foundry, &c. This is a good location, and the parties interested in the enterprise are gentlemen of capital and experience.

TWO ACCIDENTS.—A young man named Yoder, residing in Middlecreek township, whilst engaged in cutting off corn in the field accidentally cut himself in the leg above the knee. The wound was by no means a dangerous one; but, since, it has become infected very much, so much so that a few days ago he was not expected to survive. His brother also met an accident and had his leg broken. They were both at the same time, the one with a broken and the other with a sore leg. Neither of them is in

A white man named Shultz was murdered last week in Detroit by two negroes, at the instigation of the wife of the victim, who being desirous of marrying one of his murderers. The negroes and the wife are in custody, and all confess their guilt.

ALL ABOUT NAILS.—The following table will show any one at a glance, the length of the various sizes, and the number of nails in a pound. They are rated "3 penny" up to "20 penny." The first column gives the number, the second the length in inches, and the third the number per pound. That is:

3-penny,	1 inch,	557 nails
4-penny,	1 1/4 inches,	353 nails
5-penny,	1 1/2 inches,	232 nails
6-penny,	2 inches,	167 nails
7-penny,	2 1/4 inches,	141 nails
8-penny,	2 1/2 inches,	121 nails
10-penny,	2 3/4 inches,	83 nails
12-penny,	3 inches,	54 nails
20-penny,	3 1/2 inches,	34 nails
Spikes,	4 inches,	16 nails
Spikes,	4 1/2 inches,	12 nails
Spikes,	5 inches,	10 nails
Spikes,	6 inches,	7 nails
Spikes,	7 inches,	5 nails

From this table an estimate of quantity and suitable sizes for any job of work can be easily made.

There seems to be no reason to doubt that the Fenians contemplate a renewal of their movement against the British North American possessions. When that movement will begin, or what the chances for its ultimate success may be, are questions with which we have nothing to do, and which we do not propose to discuss. It is enough to know that the Fenians are making active preparations for another invasion of Canada. This is the more likely since the Radicals, who boast that they carried New York by the help of the Fenians on the Frontier are fully committed to the entire abolition of our neutrality laws. Of course they will do their best to cheat the Fenians of their price, for they have no stomach for any war save a war on the rights and liberties of American States in the South; but it is not easy to see how they can continue to wiggle out of their commitments on this subject.

CONTINUED SLANDER OF THE PRESIDENT.—With the longest of hypocritical faces the Radical leaders are privately circulating the basest falsehoods against President Johnson's private character. With an air of personal knowledge or with the oral affidavit of John Corvode, or some such fellow, they ply their dupes with baseless stories about the President's intemperance habits, his beastliness, his craftiness, and his general impurity. The Washington *Intelligencer* and *Republican* can have at various times met these calumnies with flat and unanswerable denials, but they seem to have but little effect against the falsehoods of the thousands of Radical liars who are operating in that line. The Radical leaders find they cannot reach "my policy" with any sort of argument, hence their soul and only recourse is the foul weapons of calumny and falsehood. Time will show that their tales are as groundless as those of the old Federalists, who thus attempted to drag down the purest and best patriots of the Republic.

Reaping Their Pay.—It would seem by the reports from Maine, that the manufacturing companies of that State are beginning to reap the advantages of the war for the negro. They have commenced closing their mills, and the reasons are that the wool costs more in its original state than the manufactured goods sell for in the open market. Commissions also encourage five per cent. cash, sales command a discount of four per cent., while the government duty on the gross amount of sales is five per cent. Dye stuffs and oils likewise heavily taxed, labor is high, and goods sold at the present time command only about two-thirds of their actual value. Although many of the factories have already stopped working, the glut of goods is still felt to be excessive, and other mills must inevitably follow the course of events and close up until the dawn of better times.

There is another reason, not expressed, but strongly hinted, that the high dividends realized during the past six years, being about to fail, a demand must be made upon Congress for further protection.

PETERSON'S PHILADELPHIA COUNTERFEIT DETECTOR.—This periodical, which is a regular hand-book in Banks, Offices, Counting-houses and Stores, is issued on the first and fifteenth of each month, and has become a necessity to all businessmen. Besides distinctive articles upon forged Treasury Notes and imitations of National Bank Notes, it shows the par value of all notes, in every State in the Union, and gives regular lists of all new Counterfeits and Broken Banks, state of the various Markets, Financial and Commercial News.

Peterson's Detector is carefully, ably and honestly conducted and edited, and from its large circulation, necessarily is a good advertising medium, though its space for that purpose is not very large. Some people think because our currency is nearly all National Bank and United States Notes, there is no need for "Peterson's Detector." Why now is the time to have one for reference. The facilities for counterfeiting have largely increased since the adoption of the National Banking system, under which all the banks use a uniform plate for each denomination, with only a difference of locality. This fact warrants a liberal expenditure on the part of the counterfeiter in getting up a *fac simile* on any one of the National Banks, which when detected on that particular Bank, is immediately adapted to some other Bank by simply changing the locality, and so on through the whole two thousand National Banks; whereas, formerly, a counterfeit on any State Bank, when detected, at once became worthless.

For these reasons the Detector daily grows of more importance to the public than ever. Terms of subscription to Peterson's Counterfeit Detector, corrected by Drexel & Co., bankers, is, for the Monthly issue, (per annum) \$1.50; Semi-monthly, (per annum) \$3.00; single numbers, 15 cents. To agents \$1.00 hundred net cash. Subscriptions may commence with any month. Terms cash in advance. Address all letters to T. B. Peterson.

TO THE BOARD OF TRUSTEES OF THE BLOOMSBURG LITERARY INSTITUTE.

The undersigned having been appointed by your Board of Trustees to audit the accounts of the Treasurer of said Board, do leave to report that they have examined his accounts and vouchers and find that all the money collected from the Stockholders has been paid out for material and labor for the building.

The Committee visited the building in company with some of the Trustees, and will leave to report that they have examined his accounts and vouchers and find that all the money collected from the Stockholders has been paid out for material and labor for the building.

A Persecuted Party.

Our neighbor of the *Herald*, copies an article from the *Phil North American*, and leads it, which for cool impudence exceeds anything we have read for some time. The caption of the article is "Treatment of the Republicans." It complains that they (the innocent Republicans) have been treated with "uniform disrespect and approach" by the Democracy; that we have called their Congress "a Rump," and threatened to kick the members composing the majority out of the Capital building; that we have "slandered and oppressed them," and called them ugly names and practiced "arbitrary usurpations," may now, we have killed some of them and used "every weapon that could be used by envenomed hate." And, notwithstanding all this, remarks the *North American*, the good-natured patriots of the Republican party, "have commended moderation towards the Democrats and opposed extreme measures." But, says the same paper, "the enemy (Democrats) must now be made to feel the power we have," &c.

When we remember the infamous tyranny of the Lincoln "reign of terror," the manner in which Democrats were abused, imprisoned, maligned and persecuted even to death, robbed of their property by contemptible officials and vagabond attorneys, it is not the quiescence of impudence for Republicans to complain that they have been badly treated by the Democrats? We had no power to "oppress" them even if we had desired to do so. That power was in the hands of the Radicals, and God knows they used it with a brutality that none but cowards and potboilers resort to. In less than one year over one hundred Democratic printing offices were wholly or partially destroyed by the miscreants of this hell-born party. Men were dragged to prison, many of them to die from neglect or starvation, because they dared to question the motives of an administration that will be remembered only for its glaring dishonesty and pusillanimous weakness. Democrats were drafted into the army by thousands all over the country, whilst star-wart Republicans had no fears of the draft-wheel, for it never contained their names. McCLELLAN, because he was a Democrat and a white man, was betrayed by the administration, and everything that could be done was done by those in authority to ruin the army under his command. Democratic officers were dismissed from the army and private soldiers punished because they dared to vote the Democratic ticket, and after having served their country for four long years, if they offered themselves as candidates for a civil office they were maligned by the thieving minions of the administration, and stigmatized as "traitors," "copperheads," &c. A constant stream of abuse, persecution and malignity, has followed us from the hour the Radicals took possession of the Government to the present hour, and no slander was too mean, no punishment too great to apply to Democrats who had independence enough to condemn the infamies of an infamous administration. And yet in the face of these facts, the *North American* has the brazen impudence to complain of the rudeness of Democrats toward Radicals. Poor fellows, how they are to be pitied. Most of them beggars five years ago, they now count their hundreds of thousands, and live in princely splendor, as this is the "persecution" they have suffered. Most of them are fat, jolly fellows, who have become rich from men's blood and women's tears, and they are as grasping and remorseless as they are dishonest and heartless.—*Carlisle Volunteer*.
